## Epson SureLab D1070DE Professional Minilab Photo Printer with Double-Sided Printing

### Power Up Possibilities

As demand for small-format photos continues to grow, businesses are looking for new ways to stand out from the crowd and deliver unique offerings and applications to their customers. We have taken our proven minilab technology to the next level with a printer that will help you create innovative, profitable opportunities for your business.

Introducing the all-new SureLab D1070DE—the next evolution of minilab printing from Epson.

Engineered for high-production printing, the SureLab D1070DE is capable of producing up to 460 4"x 6" prints per hour for photo, event and retail environments<sup>1</sup>. With the introduction of a new Duplex Feeder, you can now expand your business offerings with efficient double-sided printing on sheet media for use in creating photo books, greeting cards, invitations and more.

Featuring the latest in professional imaging technology, this modern minilab uses a robust print engine, coupling our advanced MicroPiezo® AMC™ printhead and vivid UltraChrome® D6r-S Ink to consistently deliver crisp, vibrant pictures on a variety of paper finishes and sizes. For improved usability, this minilab features a 1.44" LCD

screen, built-in wireless connectivity and integrated output tray, all in a sleek, compact footprint.

Engineered for reliability and offering versatile double-sided printing, the SureLab D1070DE puts users in control—providing a solution to offer new applications to maximize profitability.

## Overview

### Double-sided printing

Duplex feeder allows automated double-sided printing on sheets for a wide array of applications, such as double-sided photos, postcards, invitations, menus, greeting cards and more

### Outstanding photographic quality

Delivers high-quality prints using Epson's MicroPiezo printhead and AccuPhoto™ image processing technology, with 6-color UltraChrome D6r-S dye-based ink for vibrant, water, smudge, and fade-resistant prints<sup>2</sup>

### Production class speeds

Produces up to 460 4"x 6", 275 5"x 7" and 140 8"x10" prints per hour<sup>1</sup>

### High-Capacity Ink Packs

UltraChrome D6r-S high-capacity 250 mL ink packs deliver wide color gamut; Cartridge-Free Printing for reduced waste compared to traditional cartridge systems

### Easy to operate

New front-facing 1.44" LCD panel simplifies print tasks and operation; features new nozzle detection and alignment technology for less downtime and reliable operation

### Improved connectivity and simplified software

Connect easily to printer over Wi-Fi®, Ethernet or USB using a redesigned printer driver for Windows® and Mac®

- **Small footprint** — compact size with integrated output tray is well-suited for photobooths, portrait and event photography
- **Versatile media handling** — prints on a wide range of high-capacity roll and double- or single-sided sheet media, including glossy, luster, matte and thick card surfaces
- **Built for reliability** — reliable print engine backed by Epson's US-based support team and Epson warranty
- **Epson Cloud Solution PORT** — monitor the live status of your entire printer fleet regardless of where they are in the world; view output production rates, printer status, errors and more

Designed for use exclusively with Epson ink packs. \*

## Eco Features

- RoHS compliant
- Recyclable product<sup>3</sup>
- Epson America, Inc. is a SmartWay® Transport Partner<sup>4</sup>
